

SARA FARHAT

Healthcare Product Manager | Data, Interoperability & Healthcare Workflows

Los Angeles, CA | 562-413-0495 | Farhatsara201@gmail.com

sara-farhat-pm.vercel.app | linkedin.com/in/sara-farhat-ms-hca

Healthcare Product Manager who combines firsthand clinical experience with product and technical judgment to improve how healthcare teams work. Led product strategy and delivery across interoperability, clinical workflows, and healthcare analytics. Secured executive investment, launched new products, and translated customer and data insights into measurable workflow improvements.

WORK EXPERIENCE

Product Manager - Apps & Interoperability

Concord Technologies | B2B Healthcare SaaS | June 2023 - April 2026

Company processes 5B pages of PHI annually and serves 3 of the 5 largest U.S. payers.

- **Launched Direct Secure Messaging (DSM)** within Concord Connect with eight engineers, owning market assessment, roadmap, and product requirements through private beta and public launch at HIMSS 2026.
- **Secured six-figure board-level investment** by presenting the business case to the CEO, President, and executive leadership, positioning interoperability to support intelligent document processing (IDP) expansion.
- **Drove UX/UI redesigns informed by customer usability testing** across search, grid views, document auto-merge, and processing workflows. Testing measured a 55% improvement in task-completion time, 30% higher throughput, and 26% fewer errors and rework for a platform serving 1,000+ users across 40+ healthcare sites.
- **Scoped the MVP from bidirectional to inbound messaging** and partnered with engineering to evolve Concord Connect architecture for structured C-CDA ingestion alongside existing PDF and image workflows.
- **Selected Kno2 as the strategic HISP partner from four vendors** through sandbox testing, engineering spikes, Pugh-matrix analysis, and NDA/BAA and contract review; designed a vendor-agnostic approach to reduce lock-in.
- **Prioritized 100+ untriaged feature requests** with a customized RICE framework to guide roadmap decisions and product investment.
- **Built healthcare go-to-market foundations** by segmenting 7+ care settings, developing strategic-account outreach, and training 80+ stakeholders.

Data & Product Analyst

CareJourney | Healthcare Analytics | January 2022 - March 2023

- **Drove 20% referral-network growth and 17% cost-index improvement** by partnering with UX, Engineering, and Data Science to expand provider-performance scoring into new subspecialties, including general surgery.
- **Co-developed and refined a risk-adjusted provider-performance model for general surgery**, engineering features including HCC scores, social determinants of health variables, episode characteristics, and cost variables; evaluated R^2 , coefficients, p-values, and classification metrics to improve model fit and risk-adjusted quality and efficiency scoring.
- **Identified \$2,000+ in referral-cost reduction opportunities per patient** through market and provider-network analysis using longitudinal Medicare and Medicaid claims.
- **Built claims-based reporting logic and SQL attribution** for MSSP and ACO REACH products; translated CMS measure specifications into product-ready requirements.
- **Improved time-to-market by 15% and reduced support tickets by 60%** through sprint tracking and standardized quality assurance processes.

Acute Care Transition & Prior Authorization Specialist

Kern Medical | Safety-Net Hospital | January 2020 - September 2020

- **Increased prior-authorization approvals by 65%** with non-contracted payers and improved denial-reversal rates by 75%, expanding patient access to care.
- **Improved hospital readmission performance** from the 90th to the 75th percentile by redesigning discharge workflows, patient education, medication reconciliation, and post-discharge coordination.
- **Improved successful patient transitions by 20%** by analyzing clinical data to identify gaps in education, medication adherence, and follow-up compliance.

Performance Improvement Analyst - Employee Engagement Program

Dignity Health | Internship | Bakersfield, CA | October 2017 - June 2018

- **Led a continuous quality improvement (CQI) initiative** using DMAIC and Lean Six Sigma tools; designed employee engagement surveys, analyzed results, and presented recommendations to leadership.

Clinical Dietitian

Assaha | Beirut, Lebanon | July 2012 - June 2014

Dietetic Resident

Bahman Hospital | Internship | Beirut, Lebanon | October 2011 - June 2012

Hospital rotations in intensive care, dialysis, pediatrics, and labor and delivery; therapeutic nutrition management and patient education.

SKILLS

Product: Product strategy, roadmaps, product requirements documents (PRDs), MVP scoping, customer research, usability testing, RICE prioritization, competitive analysis, go-to-market strategy, vendor evaluation

Healthcare: C-CDA, DSM, HL7, Fast Healthcare Interoperability Resources (FHIR), electronic health record (EHR) integration, IDP, prior authorization, revenue cycle management (RCM), value-based care, risk adjustment

Data and Tools: SQL, Python, Azure DevOps, Azure Application Insights, AWS, Snowflake, healthcare claims analysis, provider-performance modeling, feature engineering

EDUCATION

M.S., Healthcare Administration | California State University, Bakersfield

B.S., Clinical Nutrition | American University of Beirut

CERTIFICATIONS AND TRAINING

Certified Scrum Product Owner (CSPO)

Post-Graduate Certificate, Data Analytics | Purdue University

Advanced Product Management Training | Product Faculty
